

LEADERSHIP CENTRE

Leadership Development Workbook

LEAD SELF TAKI TŪWĀ

Name:

New Zealand Army Recruit Training

To produce a combat focused Band One soldier, capable of operating as a section member in an RF All Arms Section

Course Aim

This course forms part of the Leadership Development System (LDS) and its aim is assisting Regular Force personnel enlisting into the NZDF to:

- enhance strategic self-awareness,
- explore the NZDF expectations at the Lead Self level of leadership IAW the NZDF Leadership Framework, and
- to develop a personalised Leadership Development Plan (LDP).

Learning Outcomes

COG 1 LDS Lead Self - RF

- LO 1.1 Demonstrate Self Awareness as a Lead Self Leader PL 1
- LO 1.2 Add Value as a Lead Self Leader PL 1
- LO 1.3 Create a Personalised Leadership Development Plan (LDP) as a Lead Self Leader PL 1

Using this Workbook

Bring this workbook along to all presentations. It will be used in lessons throughout the course. This workbook is yours to keep.

Version: APRIL 2026

1

HOW THE NZDF
CONDUCTS LEADERSHIP
DEVELOPMENT**Leadership Definitions**

Leadership is influencing, motivating and enabling others to contribute to the effectiveness and success of the New Zealand Defence Force, in an ethical manner (NZDDP 0.06, para 1.11).

Self awareness

Comprehension of your default behaviours and thinking biases. It includes understanding of your strengths and weaknesses compared to others.

Situational awareness

Comprehension of your operating context which includes the task, expectations of you as an individual, and the audience you are engaging with.

Strategic self awareness

This involves combining self-awareness and situational awareness to more effectively influence, motivate and enable others. Strategic self-awareness is comparing knowledge of one's strengths and limitations with those of others, and using this to shape and direct one's leadership to be more effective (NZDDP 0.06, p. 63).

The NZDF Leadership Development System (LDS)

Consists of:

1. The story of our NZDF Leadership Framework
2. How your leadership develops (Orientate - Build - Advance)
3. Leadership Framework:
 - Value Adds
 - Key Elements
 - Essential Tasks
 - Behaviour statements

The Story of Our NZDF Leadership Framework

Te Kāuru | Develop Positive Culture *The Canopy | Whakawhanake Ahurea Haumako*

The leaves of every branch mingle to form the tree canopy; so do the climates of units merge to form the culture of the NZDF. The health of the Tōtara tree is visible most clearly in the tree canopy. Te Kāuru encourages leaders to ensure the tone of their teams and the climate of their units are healthy and contribute positively to the culture of the NZDF.

Te Kātua | Influence others *The Trunk | Whakaaweawe Tāngata*

The trunk of the Tōtara with the Pitau a Manāia design symbolises life and growth as it reaches down towards Papatūānuku and upwards to Ranginui (Sky Father), bringing light into a world of darkness. Leaders build connections to influence others and build trust.

Ngā Aka | Live the NZDF Ethos & Values *The Roots | Whakaoratia te Mauri me ngā Uara*

Roots represent connections that keep us firmly anchored to Papatūānuku (Earth Mother) where leadership is defined and modelled through Manaakitanga (Hospitality), Whakaiti (Humility), Whakapapa (Genealogy), Whanau (Family), Whanaungatanga (Kinship) and Mana (Respect and Influence). Like the Ethos and Values, roots nourish and strengthen the entire tree.

E kore te Tōtara e tū noa i te pārae, engari me tū i roto i te wao nui a Tāne.
The Tōtara does not stand alone in the field, but stands within the great forest of Tāne.

Te Kāpuhipuhi | Mission Focus *Tree Top | Aronga Whakatakanga*

As the Tōtara continually strives to grow towards te rā (the sun), so does the NZDF make every effort to achieve the mission. The Tōtara's leaves track the progress of the sun encouraging the tree top to optimise its position within the forest. Units must anticipate changes in their mission, adapting to operational requirements and the enemy. Te Kāpuhipuhi also brings to mind guardianship and that in exercising rangatiratanga (authority and leadership) a leader must never place themselves ahead of the mission.

Ngā Kaupeka | Develop Teams *The Branches | Whakatupu Rōpū*

As the branches support the canopy of the Tōtara so do teams support NZDF culture. Ngā kaupeka are diverse and unique in shape and support mahi tahi (unity). The Tōtara branches represent the specific duties given to Tāne's siblings, Tangaroa (Sea), Tūmatauenga (War), Tāwhirimātea (Wind); along with Te Ira Tangata (human element) NZDF civilians and our whanau.

Te Uru a Tāne | Think Smart *Tāne's Head | Whakaaro Atamai*

Te Uru a Tāne brings knowledge and insightful thinking to leadership. In the same way that Thinking Smart connects to the Ethos and Values, Te Uru a Tāne strengthens the base of the Tōtara tree and its connection to Papatūānuku.

How Your Leadership Develops

The Tōtara Growth Rings - Te Pūtake

NZDF Leadership Levels

The NZDF uses the Tōtara Tree to describe the development path of NZDF leaders. Leader development is likened to the growth of the trunk, where leadership starts from a central core, the Uho.

Growth Rings - Te Pūtake

The growth rings of the Tōtara's trunk represent the seven different levels of leadership defined by the scope and scale of the leadership tasks and responsibilities. As leaders develop their skills, knowledge and ways of thinking, they grow their ability to operate at different levels of leadership. It's important for leaders to understand, and prepare for, how they add unique value at the next leadership level, differently from the previous level.

Foundation Level Behaviours Persist

Regardless of a leader's level, effective leaders continue to display the core foundational level behaviours. A tree will wither or become twisted if the uho becomes unhealthy or rots. Similarly, a good leader maintains a healthy core of leadership.

Orientate
90 days prior – 6 months

Build
6 months – 1 year

Advance
1 year – +

What now?

When you have identified which leadership level you are developing in, use the Value Adds and one-page Development Guides (Behaviour Statements) for that level. These will help you identify the mindsets and behaviours to focus your development on. Discuss with your supervisor.

You can also help your subordinates with their development using these tools (on the Leadership Toolkit). You can also use the Growth Rings | Te Pūtake to help you decide which Leadership Transition programme or course to nominate for.

Lead Self Value Adds

VALUE ADDS LEAD SELF TAKI TŪWĀ THE VALUE LEADERS ADD TO NZDF WHEN LEADING SELF

Leading yourself is fundamental to all leading in the NZDF and does not stop at this leadership level. Although the context may change as leaders progress through the organisation, it is critical that leaders continue to 'lead self' and model the NZDF ethos and values at all levels. This must be done as a subordinate, team member and as the leader. Getting things done also counts: Self leaders develop their technical and professional mastery of their roles within their team. They make well-informed decisions within the team and act in accordance with their leader's intent while supporting others to do the same.

FOLLOW LEADER'S INTENT WHAI HAU TŪ

Lead Self Leaders deliver the right outcomes efficiently and on time by acting in accordance with their leaders intent. They ensure they clearly understand the intent and purpose of their team, role and tasks, by asking questions of their peers and Team Leader. Tasks are completed effectively by prioritising effort, managing time, making timely decisions and coordinating with peers. They demonstrate accountability for the results of their work and behaviour by following-through on commitments and openly discussing their mahi, including successes and failures, and ideas for improvement. Self Leaders actively seek feedback to improve, and consider diverse perspectives.

APPLY GOOD JUDGEMENT TAITUARA

Lead Self Leaders apply good judgement to make effective decisions that align with and deliver on their team's mission. They improve the quality of their decisions by remaining calm and increasing their situational awareness. They support team-mates with this too. Self Leaders use logic, experience, others' perspectives and sound practical judgment when considering options. They understand their leader's intent and that their tasks and responsibilities contribute to a larger 'whole'; no matter how mundane they are. Self Leaders use NZDF Values to guide their judgement and decisions, particularly in times of uncertainty and ambiguity.

SUPPORT OTHERS WHAKAARO NUI

All NZDF leaders are members of a team and always have responsibility to be an effective team member; to support others, build trust, cohesion and team effectiveness. Self Leaders consistently align their behaviour with NZDF values. They are predictable, consistent and fair, regularly reflecting on their behaviour to understand and manage the impact they have on those around them. They connect and collaborate inclusively with others, regardless of background. Self Leaders are curious and ask questions to understand different perspectives on issues the team is facing. They remain calm and solution-focused when faced with tension or conflict, and support healthy debate by being open and respectful. Self Leaders speak up when they observe behaviours that do not meet the NZDF Values. They support their team-mates to maintain resilience and wellbeing.

PURSUE EXCELLENCE WHAI HIRANGA

Lead Self Leaders are key to delivering high quality outcomes 'on the ground'. To do this well, they must focus on becoming an expert in all aspects of the technical and professional skills required of them, striving to be the best they can be. They dedicate time and effort to their own development, are proactive in keeping up to date, and are curious and open to new ideas and initiatives. They are willing to challenge the status quo and take appropriate risks when trialling new methods. They seek coaching, and provide honest feedback about their own and others' performance and impact on the team. They engage with whānau and trusted support networks in and outside NZDF to help maintain resilience and wellbeing. Self Leaders embrace change in a positive manner and help others to do so too.

Leadership Framework

ETHOS & VALUES
Model the NZDF Values 24/7
Display the NZDF Ethos and Values 24/7 through your behaviour and decisions.
Courage - Taking action despite your fears. Courage is having the moral and physical strength to do what is right, even in the face of adversity. It is stepping up when things get hard. It is speaking up when you see things that are wrong. Courage is enforcing our standards and discipline. It is not giving in to peer pressure.
Commitment - Giving your best. Commitment is doing your best. It is always looking for ways to achieve the task, and persevering even when the going gets tough. Commitment is accepting and living our values and standards. It is serving New Zealand.
Comradeship - Respecting and looking out for each other. Comradeship is respecting the differences of the people around you and treating others as you'd like to be treated. It is working together as a team, being inclusive, recognising we are stronger together. Comradeship is never an excuse for covering up other people's wrongdoing.
Integrity - Doing the right thing - always. Integrity is conducting yourself honestly, ethically and to the highest professional standards - even when no one is watching. It is doing the things that you say you are going to do. Integrity is accepting responsibility for your decisions and actions.
Respond with courage and integrity to ethically challenging environments
Make decisions that support the Ethos and Values.
Stand by the Ethos and Values when these are challenged.
Speak up and hold others to account for behaviour that does not meet the Ethos and Values.
When in doubt, question the ethical reasoning of leaders.

KEY ELEMENTS	Essential Tasks	Behaviour Statements
THINK SMART		INFLUENCE OTHERS
Maintain Situational Awareness	Pay attention to what's happening around you.	Model Self-Awareness and Self Control
Check you and others understand the situation. Get advice when in doubt.	Speak and act in ways others understand.	Regularly reflect on your behaviour & performance to become self-aware.
Be open and curious	Develop a range of ideas and creative solutions to problems.	Identify and set development goals.
Test new ideas and methods.	Use mistakes as opportunities to learn.	Asses your performance against development goals.
Apply Systems Thinking	Identify the system you operate in.	Stay calm & rational in stressful settings.
Understand how your team adds to the system.	Think through the results of your actions.	Practice resilience skills to stay calm.
Plan for the future and innovate	Be aware of the unit programme & problems the team will face.	Maintain physical & mental wellbeing. Seek help if struggling.
Challenge assumptions and existing methods.	Generate and test ideas with others.	Pay attention to the emotions of others & respond in ways that calm them down.
Apply lessons learned to future actions and decisions.	Make Decisions	Understand Cultures and Group Behaviours
Use NZDF Ethos and Values to guide decisions.	Get others' input into decisions.	Respect other cultures within and outside of the NZDF.
Use logic and your experience to make decisions.	Make decisions in the required time.	Respect the norms, beliefs & customs of others.
Make decisions that achieve your leader's intent.		Display empathy with others.
		Meet others' expectations while meeting NZDF Ethos and Values.
		Build Trust and Relationships
		Make personal connections with others and get to know them.
		Behave in a predictable, consistent and fair manner.
		Act in a friendly, warm and calm way with others.
		Actively share information and collaborate. Work towards solutions with others.
		Embrace and use others' skills and experience.
		Admit mistakes and ask for help when needed.
		Give others feedback and assistance. Accept questions & input around your areas of responsibility.
		Develop the Resilience of Others
		Empathise & support others who may be experiencing stress.
		Remain calm, positive and solution focused in the face of stress.
		Remind others of stress management and resilience techniques.
		Recognise stressful situations (training) as an opportunity to learn and grow.

DEVELOP TEAMS
Build and Sustain High Performing Teams
Understand the team's purpose and goals for yourself and others.
Know your role and responsibilities.
Be inclusive and collaborate.
Speak up against behaviour that does not meet NZDF Ethos & Values.
Be curious, challenge assumptions and test new ideas.
Persist with tasks to achieve team goals and hold others to account.
Build trust with others.
Meet and exceed standards.
Adapt to demanding challenges.
Value Diversity and Inclusion
Respect others' perspectives and remain open to new ideas and methods.
Be open and prepared to provide your perspective on the situation.
Behave inclusively towards all team members.
Welcome & help new members feel part of the team.
Confront and Resolve Conflict
Assume non-hostile intent from others behaviour.
Avoid personal attacks, remain neutral and objective.
Act to control or de-escalate conflict within the team.

DEVELOP POSITIVE CULTURE
Build and Sustain a Positive Unit Climate
Behave in ways that support NZDF Ethos and Values.
Act inclusively & seek out diverse perspectives.
Speak up against behaviour that does not meet NZDF Ethos and Values.
Build trust with others.
Behave to the highest standard of social behaviour in all situations.
Be professional at all times.
Embrace Coaching and Mentoring
Acknowledge that personal and professional development is essential and you must own this.
Be willing to change your thinking patterns and behaviour.
Encourage Curiosity and Support Appropriate Risk Taking
Be curious about understanding situations and problems to solve.
Generate a range of ideas and test these. Encourage others to do the same.
Respectfully challenge assumptions and existing methods.
Embrace Change
Accept that change is natural and a chance to make improvements.
Seek opportunities for improvement.
Remain positive during change.
Adapt behaviour to support changes.

MISSION FOCUS
Ensure Alignment with NZDF Strategy
Understand your leader's intent and act accordingly.
Provide Direction and Purpose
Check you and others understand the purpose of your tasks.
Ensure you understand your tasks and expectations.
Provide Clear Intent
Be open to intent and responsible for its delivery.
Be Accountable and Hold Others to Account
Accept accountability for your actions, outputs and behaviours.
Accept responsibility for the full range of tasks assigned to you.
Prioritise and manage your own time and resources to ensure work is completed efficiently and on time.

CHAPTER 2 LEAD SELF DEVELOPMENT

Identity vs Reputation

Leadership is about influencing others.

We influence others through our behaviour – our ACTIONS and WORDS.

Identity – how you see you

Our values, skills, knowledge and past experiences form our identity as leaders.

Reputation – how others see you

Leadership reputation is formed from the intended and unintended consequences of observable behaviours.

The difference between your identity and reputation could be because of perception, denial or blind-spots. By increasing your understanding of the unintended consequences of your leadership behaviour, you increase the overlap of identity and reputation. Effective leadership behaviour development can occur where there is alignment of your identity and reputation.

Leadership development is a continuous process that aims to:

- Increase understanding of how your behaviour influences others.
- Develop the ability to act and speak in a manner that achieves the impact you intend.

Comfort Zone

The Comfort Zone

The comfort zone is the zone in which we operate day to day. The experiences in this zone are known and/or unthreatening. They will cause little anxiety or stress although actions and decisions may be impacted due to boredom or familiarity. As the name suggests it's comfortable here – it can be a hard place to leave. It is an essential zone for effective recuperation.

The Edge

The moment before you leave your Comfort Zone and enter your Stretch Zone. At this point you may feel like withdrawing from the experience and will need to make a commitment to entering your Stretch Zone.

Stretch Zone

Operating inside your Stretch Zone is often exciting, challenging and engaging but can also be a little scary or intimidating. Decision making in your Stretch Zone may be impacted due to stress or task saturation.

Panic Zone

One's perception of being 'way out there' and out of one's own control. In the Panic Zone you may have a 'Fight, Flight or Freeze' response to a situation. If you are not used to crossing The Edge into your Stretch Zone it can be easily confused with the Panic Zone. The way to identify that you are in your Stretch Zone is that you can still manage your behaviour, make decisions and notice others.

Instruction Styles

As a learner in the NZDF expect to experience a range of teaching styles.

What are the pros and cons of each style?

Teacher Directed

Pros

Cons

Discussion

Pros

Cons

Student Centred

Pros

Cons

Feedback

Respectful feedback delivered with cooperative intent is the primary tool for aligning identity and reputation. The perceptions of others capture the real time impact of your behaviour in a range of situations. This feedback is an essential aspect of effective leader development.

Feedback can be used to:

1. Correct unsatisfactory performance - this involves addressing obvious and impactful issues.
2. Improve average performance - what would take them from good to great?
3. Sustain high performance - is there anything they are not doing relevant to their role or are they over using any behaviours?

When prioritising feedback ensure you always address:

- A development area - this may range from a fatal-flaw to a chink in the armour of an effective operator.
- A clear strength - something you respect/aspire to or just see as highly effective.

Often there are multiple areas of strengths and areas for development. Aim to enhance your peers' leadership effectiveness by providing specific feedback in one key area. Using a clear format for feedback ensures it remains constructive (DEB/DESC).

DESC and DEB Feedback

Development Area: *Time management*

Describe the behaviour you have observed:

You were still making your bed when others were doing platoon fatigues.

Example of when you saw the behaviour:

This has happened twice in the last week.

Suggest a new behaviour for the workplace:

Aim to complete personal tasks 30 mins before time so you can be aware of, and assist with team efforts.

Consequence of the change for individual, group and task:

- *You will feel less stressed about being ready and supporting the team. You will also get a training benefit from completing all platoon tasks on time (the good and the bad).*
- *The team will appreciate your willingness to contribute and build trust knowing you have their back.*
- *The task will be completed sooner and potentially to a higher standard with your assistance. Completing tasks together builds team morale knowing all pers contribute to what needs to be done.*

Strength: *Effective communication*

Describe the behaviour you have observed:

You helped others always know what to bring and what to be wearing for the next lesson.

Example of when you saw the behaviour:

Everyone is always trying to figure out requirements for the next timing, you have got your head around it and make an effort to answer questions when others are unsure.

Benefits of the person continuing to behave in this way for individual, group, task:

- *Individuals feel supported and are ready for lessons, this build trust in your benevolence as a team member. Initially I didn't ask when I didn't know something, now I do. You didn't make anyone feel stupid.*
- *The platoon is ready for lessons and prepared for future efforts.*
- *More efficient task execution as all members are prepared.*

Self and peer feedback sheet

Development Area:

Describe the behaviour you have observed:

Example of when you saw the behaviour:

Suggest a new behaviour for the workplace:

Consequence of the change for the individual, group and task:

- 1.
- 2.
- 3.

Example of when you saw the behaviour:

Benefits of the person behaving this way for the individual, group, task:

1.

2.

3.

Lesson Reflection – Lead Self Development 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Use mistakes as opportunities to learn		
Regularly reflect on your behaviour and performance to become self aware		
Identify development goals. Assess your performance against development goals		
Admit mistakes and ask for help when needed		
Acknowledge that personal and professional development is essential and you must own this		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Lead Self Development 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Use mistakes as opportunities to learn		
Regularly reflect on your behaviour and performance to become self aware		
Identify development goals. Assess your performance against development goals		
Admit mistakes and ask for help when needed		
Acknowledge that personal and professional development is essential and you must own this		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER

3

ETHOS AND VALUES

NZDF Mission

Secure New Zealand against external threat, protect our sovereign interests, including the Exclusive Economic Zone (EEZ), and be able to take action to meet likely contingencies in our strategic area of interest.

Army Mission

To provide world-class combat ready land forces that are trained, led and equipped to win as part of an Integrated Defence Force.

NZDF Vision

Joint Operational Excellence. Integrated in the way we work, train and operate at home and abroad. We need to focus on working better together and being excellent in all we do, so that we are better able to win on operations.

Army Vision

To be world-class Army with Mana

Ethos and Values

Our Ethos and Values act as an organisation wide shared mental model to help frame our decisions, thinking and behaviours.

NZDF Ethos

The ethos is a characteristic spirit and belief in our organisation.

NZDF Ethos

Be accountable for your actions; serve New Zealand loyally, honourably and with pride"

Ref: NZDF Leadership Doctrine

Army Values: Courage, Commitment, Comradeship and Integrity

We are and will remain a values - based force. Values are the moral principles and standards upon which we interact with others, make judgements and take actions. The four core values of the NZDF that represent our traditional and continuing anchors are:

Courage | Tū Kaha

Taking action despite your fears. Courage is having the moral and physical strength to do what is right, even in the face of adversity. It is stepping up when things get hard. It is speaking up when you see things that are wrong. Courage is enforcing our standards and discipline. It is not giving in to peer pressure.

Commitment | Tū Tika

Giving your best. Commitment is doing your best. It is always looking for ways to achieve the task, and persevering even when the going gets tough. Commitment is accepting and living our values and standards. It is serving New Zealand.

Comradeship | Tū Tira

Respecting and looking out for each other. Comradeship is respecting the differences of the people around you and treating others as you'd like to be treated. It is working together as a team, being inclusive, recognising we are stronger together. Comradeship is never an excuse for covering up other people's wrongdoing.

Integrity | Tū Maia

Doing the right thing - always. Integrity is conducting yourself honestly, ethically and to the highest professional standards, even when no one is watching. It is doing the things that you say you are going to do. Integrity is accepting responsibility for your decisions and actions.

How will I show the Army values during recruit training?

Courage | Tū Kaha

Commitment | Tū Tika

Comradeship | Tū Tira

Integrity | Tū Maia

Lesson Reflection – Ethos and Values 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Behave to the highest standard of social behaviour in all situations		
Be professional at all times		
Be willing to change your thinking patterns and behaviour		
Stand by the Ethos and Values when these are challenged		
Speak up against behaviour that does not meet the NZDF Ethos and Values		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Ethos and Values 2

CHAPTER

4

ABOVE AND BELOW
THE LINE

This model identifies helpful and unhelpful team member behaviours. It is normal for individuals and groups to dip below the line at times. Use this model to keep the platoon on the right track.

Actions & Words that HELP	<i>Ownership</i>	<i>Task focus</i>
	<i>Accountability</i>	<i>Accurate perception</i>
	<i>Responsibility</i>	<i>Choice</i>
Above the Line		
Actions & Word that HINDER	<i>Blame</i>	<i>Escape</i>
	<i>Excuses</i>	<i>Passive</i>
	<i>Denial</i>	<i>Anger</i>
Below the Line		

Actions & Words that HINDER	Actions & Words that HELP

It is normal for individuals to dip below the line at times. Discuss and note strategies to help get back above the line.

Lesson Reflection – Above and Below the Line 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Behave in a predictable, consistent and fair manner		
Pay attention to the emotions of others & respond in ways that calm them down		
Be willing to change your thinking patterns and behaviour		
Accept accountability for your actions, outputs and behaviours		
Accept responsibility for the full range of tasks assigned to you		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

CHAPTER 5 TRUST

Trust underpins the NZDF Ethos and Values and provides the foundation for effective leadership and teamwork

Leadership is influencing, motivating and enabling others to contribute to the effectiveness and success of the New Zealand Defence Force, in an ethical manner.

Critical to the ability to influence, motivate and enable others is TRUST.

1. Competence: a person exhibits a group of skills, competencies and characteristics allowing them to do their job well.
2. Integrity: being seen as honourable and following through on commitments, with their words matching their actions.
3. Benevolence: being seen as genuinely caring and concerned about subordinates and being truly interested in others.
4. Predictability: being seen as consistent, reliable and dependable.

How fast can you lose and regain trust?

Strong pillars: Which two pillars are your strengths?

Pillar:

Example:

Pillar:

Example:

Weakest pillar: How could you develop in order to build trust?

Pillar:

Example:

Keep: What are you currently doing that helps/increases trust?

Stop: What are you currently doing that is hindering/decreasing trust?

Start: What will you start doing or implement to build trust?

Lesson Reflection – Trust 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Make personal connections with others and get to know them		
Behave in a predictable, consistent and fair manner		
Speak and act in ways others understand		
Admit mistakes and ask for help when needed		
Respect others' perspectives and remain open to new ideas and methods		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Trust 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Make personal connections with others and get to know them		
Behave in a predictable, consistent and fair manner		
Speak and act in ways others understand		
Admit mistakes and ask for help when needed		
Respect others' perspectives and remain open to new ideas and methods		

Practice Lead Self Development

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER 6 CONFLICT

Conflict

Conflict arises when two people (or groups) react emotionally to differing perspectives on an issue. The behaviours and intentions of each party are misaligned and misunderstood and tension arises. Not all conflict is negative, disagreement is a healthy part of the collaborative process.

Constructive conflict

Conflict where people with opposing perspectives work together to resolve an issue. Constructive conflict provides opportunities to clear the air, and agree on a way forward. Trust is maintained and sometimes strengthened.

Destructive conflict

This is a breakdown in productive interaction between people. Destructive conflict may use force tactics such as manipulation, intimidation and avoidance of an issue. Resolution of issues is less likely to occur. This breaks down relationships and trust, creating further conflict.

My example of constructive conflict:

My example of destructive conflict:

Why do we need to confront and resolve conflict?

Conflict conversations

1. Define the problem

What is the issue?

What am I feeling?

2. Own the problem

Own your part in the problem.

Understand you may be biased.

3. Choose the response

4. Act on it

Set goals and an action plan.

Notice when the conflict is arising so you can stop and take action.

Lesson Reflection – Conflict 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Assume non-hostile intent from others behaviour		
Avoid personal attacks, remain neutral and objective		
Act to control or de-escalate conflict within the team		
Speak up against behaviour that does not meet the NZDF Ethos and Values		
Stay calm & rational in stressful settings		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Conflict 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Assume non-hostile intent from others behaviour		
Avoid personal attacks, remain neutral and objective		
Act to control or de-escalate conflict within the team		
Speak up against behaviour that does not meet the NZDF Ethos and Values		
Stay calm & rational in stressful settings

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER 7 JUDGEMENT AND DECISIONS

Human factors affecting judgements and decisions

Frame of Reference

Frame of Reference will be influenced by many things including: Our values, our past experiences, our biases, our prejudices, our expectations about wealth, happiness, relationships and more. How we perceive things becomes what we base our decision making on.

What are two main factors influencing my frame of reference?

How could my frame of reference impact my decisions?

Bias

Bias is a tendency to favour one person, group, thing or point of view over another, often in an unfair way. Bias can come from a personal, team or public opinion. Bias is like having a mental shortcut, sometimes this shortcut is not accurate and may lead us into flawed thinking.

What are two biases I have experienced?

How could I become aware of my own biases?

Making Judgements

Situational awareness

Situational awareness is the accurate perception of your environment and context. Understanding these keeps you grounded in reality and lets you more accurately predict what will happen next. It requires deliberate effort.

Key at the Lead Self level is considering scenarios from the surrounding environment and noticing shifts in environment and context that require different actions. Situational awareness can be broken down to three levels:

1. **Perception** (WHAT)

Perception involves monitoring, cue detection and simple recognition; it enables an awareness of multiple situational elements (objects, events, people, systems, environmental factors) and their current states (locations, conditions, modes, actions).

2. **Comprehension** (SO WHAT)

Comprehension involves pattern recognition, interpretation and evaluation; it enables an understanding of the overall meaning of the perceived elements, how they fit together as a whole, what kind of situation it is, what it means in terms of one's mission.

3. **Projection** (WHAT NOW)

Projection involves anticipation and mental simulation; it enables awareness of the likely evolution of the situation and possible future states and events.

Factors affecting situational awareness

Workload, Anxiety, Fatigue and Other Stressors (WAFOS)

These stressors can negatively impact information intake, making us less systematic and more error prone.

My example:

Attention Tunnelling

Attention tunnelling is becoming fixed on certain data sources to the exclusion of others, potentially overlooking helpful information.

My example:

Requisite Memory Trap

The requisite memory trap occurs when we try to hold too many pieces of information in the short term memory store – like trying to memorise a shopping list.

My example:

Making Decisions

We make decisions all the time - these decisions may be either rational or intuitive. The quality of intuitive decisions is anchored in having relevant prior knowledge and experience. Effective rational thinking is based on good situational awareness and a deliberate thinking process. Rational thinking is better at avoiding 'human factors' influencing poor decision making.

Intuitive (fast thinking)

- Strengths:
- Weaknesses:

Rational (slow thinking)

- Strengths:
- Weaknesses:

Rational Decision Making

The Five Step Process

1. Define the objective/problem
2. Collect relevant information
3. Generate feasible options
 - Many creative possibilities
 - Feasible options
 - Three different options
 - Chosen Course of Action (COA)
4. Make the decision
5. Implement and Evaluate

OODA Loop

Observe
Level 1 Situational awareness: perception
sight, sound, smell, feel, intuition

Orient
Level 2 situational awareness:
comprehension

Decide
Level 3 situational awareness: projection
Course of Action (COA)

Act
Take Action

Feedback
Loop

Risk Assessment

Assessing the risks of an action is an essential element of decision making. There is a requirement for junior personnel to make decisions, and those decisions must be well thought out and contribute positively to the team output. Risks may be **real** or **perceived**.

Complete risk assessments to ensure you are evaluating risks accurately:

Risk Matrix examples, based on your personal experience

Lesson Reflection - Judgement and Decisions 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Think through the results of your actions		
Make decisions that support NZDF Ethos and Values		
Apply lessons learned to future actions and decisions		
Check you & others understand the situation. Get advice if in doubt.		
Generate a range of ideas and test these. Encourage others to do the same.		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection - Judgement and Decisions 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Think through the results of your actions		
Make decisions that support NZDF Ethos and Values		
Apply lessons learned to future actions and decisions		
Check you & others understand the situation. Get advice if in doubt.		
Generate a range of ideas and test these. Encourage others to do the same.		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER 8 TEAM DEVELOPMENT

Help create an effective team

A team is a small number of people with complementary skills who are committed to a common purpose, set of performance goals and an approach for which they hold themselves mutually accountable.

Good team members understand the impact of their actions and decisions on others around them. They actively share and collaborate with others, remaining neutral and objective in the midst of tension. They communicate with others in a clear manner that builds trust and connections. They ask questions to check in with and understand different perspectives and the issues the team is facing.

What is a shared purpose or goal we have as recruits?

What are two roles or responsibilities I have within the team that contribute?

What are two ways I can support other team members?

How do I support my team leaders? (Followership)

Lesson Reflection – Teams 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Behave inclusively towards all team members		
Actively share information and collaborate. Work towards solutions with others		
Understand team's purpose and goals for yourself and others		
Embrace and use others' skills and experience		
Persist with tasks to achieve teams goals and hold others to account		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies

Lesson Reflection – Teams 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Behave inclusively towards all team members		
Actively share information and collaborate. Work towards solutions with others		
Understand team's purpose and goals for yourself and others		
Embrace and use others' skills and experience		
Persist with tasks to achieve teams goals and hold others to account		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies

CHAPTER 9 CULTURE

Organisational culture

Culture comprises the attitudes, experiences, beliefs and values of an organisation.

“The specific collection of values and norms that are shared by people and groups in an organisation and that control the way they interact with each other and with individuals, teams and agencies outside of that organisation”

Edgar Shien 2010

1. Artifacts and behaviour:

Visible aspects outsiders (or new recruits) may notice. This includes physical elements like camps, equipment and uniforms and behavioural norms and rituals. E.g. drill, helping in national disasters, physically fit, high standards.

2. Stated values and beliefs:

Can be seen and discussed by members of that group. These include: 3CI, Ethos and Values and the Leadership Framework.

3. Basic assumptions:

These drive stated values and beliefs. E.g. service to others, drive to cooperate as a group (loyalty, belonging), desire to protect our group, discipline.

Organisational culture is healthy when the three levels align. Mitigating misalignment between levels builds and sustains the desired culture. Culture may be examined at any level, from section to unit to organisation.

Positive platoon culture

Make a list of what you need to do to drive a positive platoon culture.

Artifacts and behaviour:

How do you want others to see the platoon on march out day? List examples:

List examples of current or potential platoon behaviour that will hinder this:

List examples of current or potential platoon behaviour that will help this:

What do I need to do to drive positive platoon culture?

Lesson Reflection – Culture 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Act inclusively and seek out diverse perspectives		
Respect other cultures within and outside the NZDF		
Respect others' perspectives and remain open to new ideas and methods		
Stand by the Ethos and Values when these are challenged		
Speak and act in ways others understand		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Culture 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Act inclusively and seek out diverse perspectives		
Respect other cultures within and outside the NZDF		
Respect others' perspectives and remain open to new ideas and methods		
Stand by the Ethos and Values when these are challenged		
Speak and act in ways others understand		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER 10 INTENT

Act in accordance with intent

Team members are required to act in accordance with NZDF and their Leader's intent. They make sure they understand the purpose of their tasks and what is expected of them. They accept accountability for their actions, the results of their work and their behaviours. This includes prioritising and managing time to ensure they complete their tasks effectively and on time.

You will not always be told how to do tasks specifically. As you become more experienced you will be given 'intent' and be expected to achieve the outcome or end state. It is your responsibility to ask questions to clarify intent when unsure.

How do we act in accordance with intent?

e.g. Platoon SGT states "There is a Psychologists brief this morning. Be formed up outside the Conference centre at 0900".

What are the specified tasks?

What are two implied tasks?

-
-

Follow your leader's intent: Forming up for first parade

1. Write a list of individual tasks and the time they take
2. Identify bottlenecks
3. Work with other team members to synchronise your tasks to ensure effective use of time

Example:

Chris, Jane, Susan and Eric have between 0600hrs and 0630hrs to be formed up on the parade ground. They list their individual tasks and determine how much time they need for each task. They identify the bottlenecks as being cleaning boots, showering and ironing as there are only two showers, two boot brushes and two irons.

Task	Time it takes	Bottlenecks
Shower	10min	Yes
Cleaning boots	5min	Yes
Ironing	10min	Yes
Get changed	5min	No
Forming up	5min	No

Morning routine example: Synchronise tasks so that no one is ever waiting.

EXAMPLE	Chris	Jane	Susan	Eric
0600	Ironing	Shower	Shower	Ironing
0605	Ironing	Shower	Shower	Ironing
0610	Shower	Clean Boots	Clean Boots	Shower
0615	Shower	Ironing	Ironing	Shower
0620	Clean Boots	Ironing	Ironing	Clean Boots
0625	Get changed	Get changed	Get changed	Get changed
0630	Form up	Form up	Form up	Form up

Follow your leaders intent: Rest, Revise, Reflect evening routine

1. Write a list of individual tasks and the time they take
2. Identify bottlenecks
3. Work with other team members to synchronise your tasks to ensure effective use of time

List your tasks	Time it takes	Bottleneck
<i>e.g fatigues, revise booklets</i>		

RRR Evening routine example: Synchronise tasks so that no one is ever waiting.

Names (initials)

Time

Functional Leadership

The Functional Leadership model outlines three lines of effort that your leaders must balance to help a team perform their task or reach their goal, both short and long term.

Required leadership behaviours must cater to three essential needs:

- **Task** - Achieving the task
- **Team** - Managing and supporting the team or group
- **Individual** - Managing and supporting individuals

Followership

How well someone follows is as important to success as how well leaders lead. A leader's success relies upon followers being able to take direction, have good judgement, work hard and display competence in carrying out directed tasks.

Your leaders may make decisions that prioritise one aspect of functional leadership over another for a set period of time.

What are some Tasks your leader needs to manage? *e.g. preparing resources for a lesson*

What are some Team needs your leader needs to manage? *e.g. explaining what is happening next*

What are some Individual needs your leader needs to manage? *e.g. giving individual instruction OR taking time to do their own PT*

Lesson Reflection – Intent 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Check you and others understand the situation. Get advice if in doubt		
Check you and others understand the purpose of your tasks		
Accept accountability for your actions, outputs and behaviours		
Accept responsibility for the full range of tasks assigned to you		
Prioritise and manage your own time and resources to ensure work is completed efficiently and on time		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Intent 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Check you and others understand the situation. Get advice if in doubt		
Check you and others understand the purpose of your tasks		
Accept accountability for your actions, outputs and behaviours		
Accept responsibility for the full range of tasks assigned to you		
Prioritise and manage your own time and resources to ensure work is completed efficiently and on time		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER 11 CHANGE

Change is an inevitable aspect of NZDF training and operational requirements. It is normal to feel uncomfortable during the process of change. The goal is to remain positive, flexible, adaptable and pragmatic in the face of change.

Examples of change

What are some changes I'm experiencing as a recruit?

Circle of Concern

Change may result in individuals and teams developing concerns, especially if the change is unexpected or involves uncertainty. The circle of concern helps define problems that people can take productive action on.

Examine two of the changes listed on the prior page. Use the circle of concern to work out what things you can do to influence and control these changes.

Lesson Reflection – Change 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.

Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Adapt behaviour to support changes		
Accept change is natural and a chance to make improvements		
Remain positive during change		
Generate and test ideas with others		
Seek opportunities for improvement		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Select one development area and create observable, actionable and effective strategies.

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

CHAPTER 12 RESILIENCE

Understanding Resilience

Resilience is the capacity to perform under and recover from adversity.

Resilience is our capacity to bounce back from challenges that life throws at us. It doesn't mean being unrealistically happy and trouble free all of the time. When someone is resilient they are able to thrive in spite of difficult conditions. They are able to recognise what things they can control. Resilient people also make the best use of the resources they have, knowing that life is often not perfect or fair.

What does resilience look like and how do we know when we are resilient?

- The demands we face are challenging rather than demoralising
- Our health is generally good
- We have healthy habits and good social connections
- We can identify and use all of our resources to help us stay strong

Resilience is important because it allows us to perform even under some of the most adverse conditions. Although different roles require different levels of resilience, we all need to be resilient in some sense.

Myths and Facts of Resilience

MYTH – Resilience is a genetic trait that you are either born with or not.

FACT – Resilience is a capacity that can be developed like any other. Like our level of fitness, we have natural tendencies, but our environment and experiences (i.e. how much we train and our expectations) have a massive influence on determining our resilience.

Performance Mindset

$$PERFORMANCE = POTENTIAL - INTERFERENCE.$$

A performance mindset allows us to maximise personal potential by minimising or eliminating interference and therefore maximising performance. This mindset is controlled by focusing on rational solution-based thinking and the circle of concern.

Below is an example of two people with the same potential. Notice the person that has less interference can outperform the other person.

Mental skills

Developing and mastering your mental skills is what minimises or eliminates interference. The following pages contain some mental skills NZDF has identified as being key to aiding performance.

Mental Skills - Lead Self Under Pressure

Understanding Mental Health

Mental Health is not a black and white matter rather, it exists on a scale. The model below (which was developed by the Canadian Forces) shows how people can move from being healthy at one end of the scale to being ill at the other end.

It's important to understand that you can move forwards and backwards along this continuum. The earlier you get assistance, the easier it is to get back to operating in the healthy green zone.

	Healthy	Reacting	Injured	ILL
Behaviours	Physically and socially active	Decreased activity/socialising	Avoidance/withdrawal	Not going out or answering the phone
Workplace	Performing well In control mentally	Procrastination Missing deadlines Working long hours	Poor performance/ Workaholic Poor concentration and decisions	Can't control behaviour, perform duties or concentrate
Social & Lifestyle	No/limited alcohol use/gambling	Regular but controlled alcohol use/gambling to cope	Increased alcohol use/gambling Hard to control with negative consequences	Frequent alcohol or gambling use Inability to control with severe consequences
Physical Health	Physically well	Muscle tension Headaches	Increased aches and pains	Physical illness
Attitude	Motivated and focused	Distracted and forgetful	Negative attitude	Overt insubordination
Mood	Normal mood fluctuations Calm and takes things in stride Good sense of humour	Irritable/impatient Nervous Sad Overwhelmed	Angry Anxious Sad Hopeless	Angry outbursts Aggression Anxiety/panic attacks Depressed, suicidal thoughts
Energy & Rest	Good energy levels Normal sleep patterns Few sleep difficulties	Low energy Trouble sleeping Intrusive thoughts	Fatigue Restless disturbed sleep Recurrent images Nightmares	Constant fatigue Can't fall asleep or stay asleep Sleeping too much or too little

So how do you know where you fit on the scale? The graphic above shows some of the indicators of each part of the scale.

It's important to note that the further you are to the right of the scale the more specialised assistance you will need to become well. Getting help at the point of reacting or being injured will help to prevent becoming ill.

Where do you think you sit on the scale now?

Lesson Reflection – Resilience 1

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.
Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Maintain physical and mental wellbeing. Seek help if struggling		
Empathise and support others who may be experiencing stress		
Practice resilience skills to stay calm		
Remind others of stress management and resilience techniques		
Recognise stressful situations (training) as an opportunity to learn and grow		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Lesson Reflection – Resilience 2

The Behaviour Statements define what successful leadership behaviour looks like at the Lead Self level. Consider the selection of Behaviour Statements below and rate yourself:

Strength I do this already and need to maintain it.
Development Area I need to start doing this in relevant situations.

Keep in mind that you are in the orientation phase of becoming a Soldier at the Lead Self transition. Ask your instructor to explain behaviour statements or situations where they best fit to aid your understanding.

Behaviour Statement	Strength	Dev Area
Maintain physical and mental wellbeing. Seek help if struggling		
Empathise and support others who may be experiencing stress		
Practice resilience skills to stay calm		
Remind others of stress management and resilience techniques		
Recognise stressful situations (training) as an opportunity to learn and grow		

Practice Lead Self Development

Select one development area and create observable, actionable and effective strategies

Development Area:

Keep: What are you currently doing that helps/increases performance?

Stop: What are you currently doing that is hindering/decreasing performance?

Start: What will you start doing or implement to be more effective?

Identify situations in which you might use these strategies:

Enhancing Resilience

Review your performance after challenging experiences using systematic self-reflection (SSR) and create a game plan for future efforts. Challenging experiences may include mental, physical and social stressors.

Systematic Self Reflection

Describe your most stressful or challenging situation/s from today (facilitation/activity):

Describe your thoughts, words and actions:

What coping strategies did you use?

Why were these strategies effective or ineffective (for individual, team and task)?

Game Plan - Strategies to be more effective in the future?

Keep: What are you currently doing that helps you cope/increase performance?

Stop: What is hindering/ decreasing performance?

Start: What strategies will you implement to be more effective?

Systematic Self Reflection

Describe your most stressful or challenging situation/s from today (facilitation/activity):

Describe your thoughts, words and actions:

What coping strategies did you use?

Why were these strategies effective or ineffective (for individual, team and task)?

Game Plan - Strategies to be more effective in the future?

Keep: What are you currently doing that helps you cope/ increase performance?

Stop: What is hindering/ decreasing performance?

Start: What strategies will you implement to be more effective?

CHAPTER 13

CREATE A LEADERSHIP DEVELOPMENT PLAN

This chapter supports the creation of your personal Leadership Development Plan (LDP) to enhance your effectiveness as a Lead Self Leader.

Step 1. Review the Value Adds Identify your target for effective behaviour

1. Prior to Exercises one and two.
2. Review the Lead Self Value Adds that explain how you can add value to the NZDF's mission, (pages 71 – 74 Pre Exercise one & 78 – 81 Pre Exercise two).
3. Record two strengths and two development areas for each value add.

Step 2. Complete Self and Peer Feedback using the Lead Self Value Adds

1. Post Exercises one and two.
2. Complete feedback sheets for yourself (pages 75 Post Exercise one & 82 Post Exercise two) and your peers (using DEBDESC sheets) based on the current exercise.
3. In sections, disclose self and peer feedback verbally with one person in the 'hot seat' at a time:
 - Round 1: Priority development area
 - Self-disclosure of priority development area
 - Peers disclosure of priority development area
 - Round 2: Priority strength
 - Self-disclosure of priority strength
 - Peers disclosure of priority strength
 - Finish the feedback round by having peers tear out feedback sheets and hand them to the individual.
 - Rotate through the remaining section peers using the same process.
4. After all section members have received feedback, summarise feedback in Peer Feedback Summary (page 76 Post Exercise one & 83 Post Exercise two).

Step 3. Complete and disclose your LDP

1. Complete mid course LDP goals post Exercise one (page 77).
2. Complete your final LDP (page 84) before march out to support your performance goals going forward.
3. Disclose your LDP in pairs or in syndicates.

Self and Peer Feedback – Set Up

Feedback is the primary tool for aligning identity and reputation. This session aims to do this by using the current perceptions of others. It will capture real time observations of your behaviour in a range of situations.

Feedback can be used to:

4. Correct unsatisfactory performance - this involves addressing obvious and impactful issues.
5. Improve average performance - what would take them from good to great?
6. Sustain high performance - is there anything they are not doing relevant to their role or are they over using any behaviours?

When prioritising feedback ensure you address:

- A development area – an observed behaviour that hinders the task, the team or specific individuals.
- A strength – an observed behaviour that helps the task, the team or specific individuals. A behaviour the you respect/aspire to, or just see as highly effective.

Often there are multiple areas of strength and areas for development. Aim to enhance your peers leadership effectiveness by providing specific behavioural feedback in one key area.

The Task

You are required to provide legible written feedback on development areas and strengths for yourself and other recruits (using the DEB/DESC format). This feedback will then be delivered verbally.

Self-assessment

Identify one development area and one strength based on your self assessment of your performance.

Peer-assessment

Describe one development area and one strength for each team member based on observed behaviour.

Once you have given an individual verbal feedback you will also give them the written copy.

Feedback Example

Development Area

Describe the behaviour you have observed:

Always contributing own ideas to group, not encouraging input from others.

Example of when you saw the behaviour:

In most of our decision-making points (e.g. top of Mt Stokes; where to camp, etc), you're usually the first to give an idea.

Suggest a new behaviour for the workplace:

Wait for others to speak first, if an idea has already been raised that you agree with then there may be no need to speak at all.

Consequence (benefit) of the change for individual, group and task:

- *The group will benefit from the ideas of more people (achieve the task more efficiently and effectively).*
- *You'll engage others more, this helps to create buy in. The new behaviour will develop subordinates as they will need to find solutions and hence develop confidence.*
- *Peers will find you more respectful and superiors will see a leader who isn't over-leading but they can trust to get the job done when required.*

Strength

Describe the behaviour you have observed:

Confidence when taking a leadership role in the group, and in decision-making (backing your own ideas; delivering them clearly and confidently).

Example of when you saw the behaviour:

A couple of times when the group was delaying a decision (e.g. where to cross the river) you stepped into a leadership role, made a decision and got us moving.

Benefits of the person continuing to behave in this way for individual, group, task:

- *More efficient task execution. This works well when decisions have to be made quickly.*
- *Ability to make the hard calls. This works well during pressure situations, people will see your leadership presence.*

Value Add Review One – Pre Exercise One

Use this section to review and reflect on each Lead Self Value Add. These are themes which describe expected Lead Self behaviours.

Record your strengths and development areas for each.

Follow Leader's Intent

Lead Self Leaders deliver the right outcomes efficiently and on time by acting in accordance with their leaders intent. They ensure they clearly understand the intent and purpose of their team, role and tasks, by asking questions of their peers and Team Leader. Tasks are completed effectively by prioritising effort, managing time, making timely decisions and coordinating with peers. They demonstrate accountability for the results of their work and behaviour by following-through on commitments and openly discussing their mahi, including successes and failures, and ideas for improvement. Self Leaders actively seek feedback to improve, and consider diverse perspectives.

Strength I do this already and need to maintain it.

-
-

Development Area I need to start doing this in relevant situations.

-
-

Pursue Excellence

Lead Self Leaders are key to delivering high quality outcomes 'on the ground'. To do this well, they must focus on becoming an expert in all aspects of the technical and professional skills required of them, striving to be the best they can be. They dedicate time and effort to their own development, are proactive in keeping up to date, and are curious and open to new ideas and initiatives. They are willing to challenge the status quo and take appropriate risks when trialling new methods. They seek coaching, and provide honest feedback about their own and others' performance and impact on the team. They engage with whanau and trusted support networks in and outside NZDF to help maintain resilience and wellbeing. Self Leaders embrace change in a positive manner and help others to do so too.

Strengths

I do this already and need to maintain it.

-

-

Development Area

I need to start doing this in relevant situations.

-

-

Support Others

All NZDF leaders are members of a team and always have responsibility to be an effective team member; to support others, build trust, cohesion and team effectiveness. Self Leaders consistently align their behaviour with NZDF values. They are predictable, consistent and fair, regularly reflecting on their behaviour to understand and manage the impact they have on those around them. They connect and collaborate inclusively with others, regardless of background. Self Leaders are curious and ask questions to understand different perspectives on issues the team is facing. They remain calm and solution-focused when faced with tension or conflict, and support healthy debate by being open and respectful. Self Leaders speak up when they observe behaviours that do not meet the NZDF Values. They support their team-mates to maintain resilience and wellbeing.

Strengths

I do this already and need to maintain it.

-
-

Development Area

I need to start doing this in relevant situations.

-
-

Apply Good Judgement

Lead Self Leaders apply good judgement to make effective decisions that align with and deliver on their team's mission. They improve the quality of their decisions by remaining calm and increasing their situational awareness. They support team-mates with this too. Self Leaders use logic, experience, others' perspectives and sound practical judgment when considering options. They understand their leader's intent and that their tasks and responsibilities contribute to a larger 'whole', no matter how mundane they are. Self Leaders use NZDF Values to guide their judgement and decisions, particularly in times of uncertainty and ambiguity.

Strengths

I do this already and need to maintain it.

Post Exercise One

Self-Assessment

Record here how you see your development areas and strengths post Exercise One.

Development Area

Describe your behaviour:

Example of when you saw the behaviour:

Suggest a new behaviour for the workplace:

Consequence (benefit) of the change for the individual, group and task:

- 5.
- 6.
- 7.

Strength

Describe your behaviour:

Example of when you saw the behaviour:

Benefits of behaving this way for the individual, group, task:

- 1.
- 2.
- 3.

Peer Feedback Summary

8. Use this page to consolidate feedback from your peers post Exercise One.
9. Prioritise your development areas and strengths from high to low WRT enhancing your ability to meet the Lead Self Value Adds.

Lead Self Development Plan - Post Exercise One

From the feedback and self assessments in the previous pages – create a development plan to help improve your performance until the end of recruit training.

Priority Strength - Value Add:

Keep - what should I continue to do that helps me to perform well?

Stop – what is hindering individual and/or team performance?

Start – what strategy will help enhance individual and/or team performance?

When will I use these strategies (specific situations)?

-
